

# Product booklet QCR Recycling Equipment

## Fold-out pocket guide to QCR product range

QCR needed a concise way to present their entire product range of recycling machinery at shows and exhibitions. Scoop devised a convenient and easy to use pocket sized fold-out guide.

## Features

Concise, innovative, convenient, informative.

**QCR RECYCLING EQUIPMENT**

**PYROPURE® CLINICAL WASTE DESTRUCTION**

PyroPure is a new and unique process for destroying waste at the source. Using pyrolysis like never before, all non-recyclable waste is disposed of on site.

The benefits of PyroPure® technology:

- Save money by reducing waste collections
- Improve hygiene and reduce infection risks by sterilising and destroying waste quickly
- Heat water for use in your premises waste quickly
- Save space and improve appearance by eliminating bin storage

Ideal for hospitals, medical centres, care homes, laboratories, prisons, police stations and remote locations.
