**SYLVA** Design & Build Solutions

Green and sustainable homes inspired by you, created by Sylva

**concept to keys**

Sylva homes are designed to meet your individual build and living goals. Your home will be as unique as you are, standing out from the crowd or blending in with its surroundings.

**SYLVA** Design & Build Solutions

**concept to keys**

**Design** **Develop** **Build**

Our Concept to Keys® approach to the design and build of your new home delivers low-risk, cost-certain build packages, allowing you to stay in control of your build without having to take responsibility for the day to day management.

**Creating a truly bespoke home**  
Sylva home designs are not selected from a library of pre-determined solutions - we prefer to work with you to design a home that meets your individual requirements.

**Ask the experts**  
Our knowledgeable specialists have expert answers to all your questions including:

- Design trends
- Specialised design advice
- Matching design and lifestyle
- The design journey

**Green and sustainable homes**  
Integral to every Sylva home is our Green timber frame build system. We use offsite manufacturing techniques to match pre-insulated wall panels to engineered floor and roof components to provide a strong and warm superstructure.

**Green closed panel system**
